PROFESSIONAL EXPERIENCE

Losode Inc.

FrontEnd Developer

Apr 2023 – Mar 2024

Lagos, Nigeria

- A member of a frontend development team of an eCommerce company, actively contributing to bug fixing and issue resolution to maintain a smooth and error-free user experience, resulting in increased customer satisfaction and retention.
- Developed and deployed innovative user interfaces (UIs) for the company's web applications, focusing on enhancing the overall design aesthetics and user interactions.
- Collaborated closely with cross-functional teams, including designers and backend developers, to translate product requirements into functional and visually appealing frontend solutions, ensuring seamless integration and efficient workflow.
- Successfully implemented responsive web design principles, optimizing web pages for various devices, resulting in a mobile-friendly and accessible shopping experience for users, thereby driving increased traffic and conversions.

UpWorks

Freelancer

Oct 2021 – Aug 2022

Lagos, Nigeria

- As a dedicated Frontend Freelancer, I specialized in crafting captivating and high-converting landing pages for clients across diverse industries, providing them with unique digital gateways to engage their target audiences effectively.
- Using HTML, CSS JavaScript and REACT, I translated clients' design concepts and marketing objectives into pixel-perfect, responsive, and interactive landing pages, ensuring optimal user experiences and seamless cross-device compatibility.

- Collaborated with other developers to work on projects and also maintaining open communication with clients throughout the development process, fostering long-term partnerships built on trust and client satisfaction.

New Horizons

Aug 2020 – Dec 2020

Intern

Lagos, Nigeria

- As an intern, I diligently acquired a strong foundation in web development, mastering essential technologies such as HTML, CSS, and JavaScript, gaining proficiency in building dynamic and interactive web applications.
- Embarked on hands-on projects during my internship, demonstrating my practical knowledge by designing and developing functional websites, applying creativity and problem-solving skills to ensure seamless user experiences.
- Collaborated effectively with fellow team members, contributing to group projects and absorbing valuable insights from experienced developers, fostering a collaborative and supportive learning environment.
- Leveraged continuous learning and self-improvement, staying abreast of the latest web development trends and best practices, constantly refining my skills to adapt to the ever-evolving landscape of the tech industry.

PERSONAL PROJECTS

Bube Boutique

A brand e-commerce website

- Created a dynamic and responsive user interface using Next.js and Tailwind CSS, ensuring a seamless shopping experience across various devices and screen sizes.
- Designed a robust product catalog featuring a wide range of items, allowing users to effortlessly browse products to find exactly what they need.
- Utilized Sanity CMS for efficient backend management, enabling flexible and scalable content management, facilitating easy updates and maintenance of the product catalog.
- Built an efficient Cart system with Redux Toolkit, allowing users to add, review, and modify their selected items before proceeding to checkout.
- Integrated Paystack test payment processing, enabling users to complete their transactions smoothly and confidently, supporting multiple payment methods and ensuring financial data safety

Rently

A real estate website

- Developed a modern real estate web application using React, Tailwind CSS, and Redux, offering a seamless user experience.
- Implemented a user-friendly interface allowing users to browse and view available houses for rent.
- Integrated Paystack payment gateway to facilitate secure online transactions for rental payments.
- Utilized Redux for state management, ensuring efficient data flow and seamless interaction between components.
